## The Honorary Editor-in-chief Desk

**Prof. S. Rajasekaran, M.S. (Gen.Sur)**

Dean

Sri Lakshmi Narayana Institute Of Medical Sciences, Puducherry

Dear Readers,

Our journal website has reached over lakh unique visitors and hard copies of researchers published works have been disseminated globally by the JCTMB. The researchers, practitioners and visitors are able to access and download the full JCTMBS Articles without any charges. We are devoted to establishing open access standards, making our content freely available to those who need it the most – the academicians. The journal will strive to combine academic excellence with professional. The purpose of the JCTMB is to fill the gap between the perspective and the approach of the various disciplines focusing on Medical Sciences. JCTMB functions on principles of scientific excellence, publication ethics and transparency. The prevalence of diabetes is rapidly rising all over the globe at an alarming rate. Early identification of the high risk individuals would help in taking appropriate interventions in the form of dietary changes and increasing physical activity. In this issue HbA1C to fructosamine in Type 2 Diabetes mellitus in early detection of diabetic complications. As the fructosamine refers to a laboratory test for diabetes management that is rarely used in clinical practice.

**PROF DR.S.RAJASEKARAN**

## From the Editor's Desk

**Dr.A.Vaithialingam, M.S. (Ortho)**  
Professor of Orthopaedics & Advisor of SLIMS, Puducherry

Dear Colleagues,

JCTMB play an important role in dissemination of new information relevant to healthcare among both researchers and persons engaged in delivery of healthcare at various levels. Journal editors are an essential part of this information exchange process, managing the process of peer review, taking decisions on publication of manuscripts, sourcing review articles, and copyediting the material before publication. JCTMB aims to bring to light the various clinical advancements and research developments attained over the world, thus helping the specialty forge ahead. It is directed towards physicians and medical personnel undergoing training or working within the field of Medicine. Disciplines covered include interesting clinical cases, the latest evidence- based practice and research developments in clinical Medicine.

**DR.A.VAITHIALINGAM**

## Outstanding Editor-in-chief Note

**Dr.E.Prabhakar Reddy,**  
MS.c., M.Phil., Ph.D., MS, PGDAMB, PGDHM, CCP.  
Associate Professor of Biochemistry and Central Laboratory Head,  
Sri Lakshmi Narayana Institute Of Medical Sciences  
Puducherry.

Dear Readers,

JOURNAL OF CURRENT TRENDS IN CLINICAL MEDICINE AND LABORATORY BIOCHEMISTRY (JCTMB) is open access online refereed international journal. Article published by journal includes case study, mini-reviews, original research paper, focused reviews, short note, and letter to the editor. At least two reviewers are allotted to an article for reviewing. All articles submitted goes for double blind refereed review before decision of paper. Editorial board members of International Journal of Recent Research in Medical Sciences encourage publishing of recent research and finding in the field of life sciences. Major topics list covered are given below. In addition to given topics, interdisciplinary topics of life sciences are warmly invited for publishing. Full emphasis is given to quick review process of article after submission. Paper Publications provides paper tracking system to authors.
